Learn Synchronized Skating!

FREE for Basic 1-4 skaters!

Everyone is talking about the fascinating sport of Synchronized Skating and in response to the great demand, Wissahickon Skating Club is proud to again offer instruction for the public or club members this season.

Our Intro to Synchro program has attracted Public Group Lessons skaters for the past few years because it is a way to learn about this exciting sport *without* making a full club membership commitment. Past students have benefited from being able to apply what they've learned so far in the Basic Skills series to a team sport that builds on their current skills. Many of our current competitive skaters started in Intro to Synchro. They have gone on to compete Nationally with our competitive Synchronized Skating teams!

The sport of Synchronized Skating is presently being considered for addition in the Winter Olympic Games in 2018 and is also under consideration to be recognized as an NCAA sport! Combining several skaters on a team and skating "In Sync" is what the sport is all about. A team consists of between 8–20 skaters who skate to music in various formations such as circles, lines, blocks, wheels, and intersections.

Participants of Intro to Synchro will participate in Wisscapades on March 21 & 22!
