PLEASE READ CAREFULLY BEFORE SIGNING

The novel coronavirus, COVID-19, has been declared a worldwide pandemic by the World Health Organization, and is extremely contagious. The virus is believed to spread from person to person contact and/or by contact with contaminated surfaces and objects, and possibly in the air. People reportedly can be infected and show no symptoms and therefore unknowingly spread the disease. The exact methods of spread and contraction are unknown, and there is no known treatment, cure, or vaccine for COVID-19. Evidence has shown that COVID-19 can cause serious potentially life-threatening illness and even death.
